Art Unit: 2871

## **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: claim 7-8 have been canceled.

The following is an examiner's statement of reasons for allowance: a reflectiontype liquid crystal display device, comprising: the prior art of record teaches or suggest a first substrate; a second substrate disposed so as to face said first substrate, said second substrate carrying projections and depressions having a reflectivity; a liquid crystal layer having any of positive or negative dielectric anisotropy provided between said first and second substrates; and a polarizer disposed at an outer side of said first substrate, an optical phase compensation film disposed between said first substrate and said polarizer, said optical phase compensation film having a dielectric anisotropy in a direction perpendicular to a plane of said first substrate, said optical phase compensation film having a retardation  $df[(n_x+n_y)/2-n_z]$  so as to satisfy the relationship  $0.4 \le [df[(n_x+n_y)/2-n_z]]$  $n_z$ ]/(dlc $\Delta$ .n)  $\leq$  0.7, wherein  $n_x$ ,  $n_y$  and  $n_z$  are refractive indices of said optical phase compensation film respectively in an x-direction, a y-direction and a z-direction, dlc is the thickness: of said liquid crystal layer, and  $\Delta n$  is a refractive index difference between an extraordinary ray and an ordinary ray in the liquid crystal layer. However the prior art of record does not teach nor suggest phase plate having negative dielectric anisotropy that satisfies  $0.4 \le \left[ \frac{df}{(n_x + n_y)} / 2 - n_z}{dlc \Delta . n} \right] \le 0.7$  in combination with the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2871

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James A. Dudek whose telephone number is 571-272-2290. The examiner can normally be reached on 9:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert H. Kim can be reached on 571-272-2293. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
